| 68513 e | 8311210  | plug-in bulbs,19V, 10/pack               |           |

The **DiMAX System** features a 2-way communication between the Navigator=hand held control and the central station. The Navigator provides essential information about the layout, loco selection by item or name. Train control and switch control in one remote, exceptional range up to 1000(!) feet (tried and true), upgraded permanently by free software upgrades.

For more information about the DiMAX System or any questions about Massoth products or LGB smart replacements **please contact James Shourt** at our office : Shourt Line by Soft Works Ltd: **310-622-4431**

In case you cannot find the item(s) you are looking for in this list or our catalog please contact us. We might be able to locate them for you.

All above listed items are in stock and ready to ship.

**Shourt Line is the # 1 Massoth Dealer in the USA**
